#### 4. Proposed works and description of proposal

What is the notification for? Please tick the boxes which apply:

Replacement of existing finfish cage or installation of an additional finfish cage/pen

(see section 4a below)

Replacement and/or repositioning of a feed barge at a finfish farm

(section 4b)

Replacement of top nets and/or their support structures at a finfish farm

(section 4c)

Temporary deployment of equipment (excluding fish cage/pens) at a finfish farm

(section 4d)

Addition of longlines at a shellfish farm

(section 4e)

#### Description of proposed works:

--

I confirm that no work has been undertaken in connection with the development described within this prior notification

I confirm that the proposed works will not extend beyond the existing consented site boundary

#### 4a. replacement of an existing finfish cage or installation of an additional finfish cage/pen (Class 21A) (Please confirm matters and tick the boxes which apply)

I confirm that the total surface area of this fish farm covered by equipment would not as a result of this proposal be greater than 15,000 sq. m; and

I confirm that the increase in total cage/pen area would not exceed the lesser of 1,000 square metres or 10% of the original total cage/pen area

An existing finfish pen is to be relocated

A new finfish cage/pen is to replace by an existing finfish cage/pen in the same location

A new finfish cage/pen is to be placed in a new location within the site to replace an existing finfish cage/pen

An additional finfish pen is to be installed

**4c. The placement or assembly of equipment within the area of an existing fish farm (Class 21C) (Please confirm matters and tick boxes which apply)**

I confirm that no top nets or equipment to support top nets will exceed 2.5 m. in height

The existing top net or support for a top net is to be replaced with a top net or support of a different size, colour and design

The existing top net or support for a top net is to be replaced with a top net or support of the same size, colour and design

**Description of proposal (include details of locations, colour, size and design):**

**4d. Temporary deployment of equipment within an existing fish farm site/shellfish site which is required in connection with the operation of the fish farm (Class 21D) (Please confirm matters and tick the boxes which apply)**

I confirm that the proposed equipment will not be placed on site for a period greater than 3 months

I confirm that the proposed equipment has not been placed within this fish farm site in the previous 12 months

I confirm that the equipment proposed is *not* a finfish pen or cage, longline, barge or top net support

I confirm that the surface area covered by the proposed equipment is no greater than 1% of the surface area covered by the permanent equipment of the existing fish farm

I confirm that no equipment proposed will be greater in height than 2.5 m. unless a feed barge is on site and then the equipment will be no greater than ½ the height of that feed barge

**Description of equipment (include details of colour, size and design):**
