# Review of Education Provision: May 2010 Cross School, Isle of Lewis

## Report by the Director of Education and Children's Services

### PROPOSAL

#### It is proposed that:

- **Education provision at Cross Primary School be discontinued with effect from 30 June 2011.**
- **That the pupils of Cross Primary School continue their education at Lionel School, from 18 August 2011.**
- **That the catchment area of Lionel School be extended to include the current catchment area of Cross Primary School.**

### INTRODUCTION

- 1.1 Comhairle nan Eilean Siar aims to allocate resources in a way which will secure the best possible educational experience for pupils in the Western Isles. Implicit in this key objective is the effective deployment of resources in order to secure continuous improvement in educational achievement and attainment, and to provide better facilities in the most viable settings.
- 1.2 The Comhairle took a decision in February 2009 to undertake a community information and engagement exercise prior to bringing a further report to the Education and Children's Services Committee. The Comhairle then decided to undertake a series of Community Conversations to enable it to decide whether any schools would become the subject of a statutory consultation process.
- 1.3 The Comhairle, at its Meeting on 18 February 2010, authorised the Director of Education and Children's Services to proceed to undertake the necessary statutory consultation with parents, staff, pupils and other interested parties affected by the proposal regarding the closure of Cross School as required by the Schools (Consultation)(Scotland) Act 2010.
- 1.4 This document relates to a proposal to close the Primary School at Cross with effect from 30 June 2011 on the basis of the transfer of the pupils to Lionel School on 18 August 2011.

### CONSULTATIVE PROCESS - SUMMARY OF PROCESS FOR THIS PROPOSAL DOCUMENT

#### Consideration by the Education and Children's Services Committee

- 2.1 This Proposal Document has been issued as a result of a decision approved by the Comhairle. This is to seek views on the proposal in this paper.

#### Proposal Document issued to consultees and published on Comhairle Web-site

- 2.2 A copy of this document will be issued free of charge to the consultees listed at appendix A, and it will also be published on the Comhairle website: [www.cne-siar.gov.uk](http://www.cne-siar.gov.uk)

**Publication of advertisement in local newspapers**

- 2.3 An advertisement will be placed in the Stornoway Gazette and the West Highland Free Press. In addition, there will be announcements related to the Consultation process on the local radio station, Isles FM and Radio nan Gaidheal.

**Length of Consultation period**

- 2.4 An advertisement will be placed in local newspapers on Thursday, 13 May 2010. The consultation will thereafter run until close of business on 30 June 2010, which includes a period of 34 school days.

**Public meeting**

- 2.5 A public meeting will be held on **Tuesday, 1 June 2010**, the details of which are given in this Document.

**Involvement of HMle**

- 2.6 When the Proposal Document is published, a copy will also be sent to HMle by the Comhairle. HMle will also receive a copy of any relevant written representations that are received by the Comhairle from any person during the consultation period or, if HMle agree, a summary of them. HMle will further receive a summary of any oral representation made to the Comhairle at the public meeting that will be held and, as available (and so far as otherwise practicable), a copy of any other relevant documentation. HMle will then prepare a report on the educational aspects of the proposal not later than 20 August 2010 after the Comhairle has sent them all representations and documents as mentioned above. In preparing their report, HMle may visit the affected schools and make such reasonable enquiries of such people there, as they consider appropriate, and may make such reasonable enquiries of such other people as they consider appropriate.

**Preparation of Consultation Report**

- 2.7 The Comhairle will review the proposal having regard to the HMle Report, written representations that it has received and oral representations made to it by any person at the public meeting. It will then prepare a Consultation Report. This report will be published in electronic and printed formats and will be advertised in local newspapers. It will be available on the Comhairle web-site and from Comhairle Headquarters, as well as at the affected schools, free of charge. Anyone who has made written representations during the consultation period will also be informed about the report. The report will include a record of the total number of written representations made during the consultation period, a summary of the written representations, a summary of the oral representations made at the public meeting, the Authority's response to the HMle Report as well as any written or oral representations it has received, together with a copy of the HMle Report and any other relevant information, including details of any alleged inaccuracies and how these have been handled. The Report will also contain a statement explaining how it complied with the requirement to review the proposal in light of the HMle Report and representations (both written and oral) that it received. The Consultation Report will be published at least 3 weeks prior to the Comhairle making a decision.

**Decision**

- 2.8 This Consultation Report together with any other relevant documentation will be considered by the Education and Children's Services Committee who will make a recommendation. This recommendation will then be subject to the approval of the Comhairle.

**Scottish Ministers Call-in**

- 2.9 In the event that the Comhairle decides to close the school at this stage, it is required to notify the Scottish Ministers of that decision and provide them with a copy of the Proposal Document and Consultation Report in accordance with the Schools (Consultation)(Scotland) Act 2010 within 6 working days of the decision being made. The Scottish Ministers have a 6 week period from the date of that final decision to decide if they will **call-in** the proposal. If the Scottish Ministers call-in the proposal they may refuse to consent to the proposal or grant their consent to the proposal subject to conditions or unconditionally. Within the first 3 weeks of the 6 week period, the Scottish Ministers will take account of any relevant representations made to them by any person. Until the outcome of the 6 week call-in process has been notified to the Comhairle, the Comhairle will not proceed to implement the proposal.

**Note on Corrections**

- 2.10 If any inaccuracy or omission is discovered in this Proposal Document either by the Comhairle or any person, the Comhairle will determine if relevant information has been omitted or, if there has been an inaccuracy. The Comhairle will then take appropriate action which may include the issue of a correction or the reissuing of the Proposal paper or the revision of the timescale for the consultation period if appropriate. In that event, relevant consultees and HMIE will be advised.

**PUBLIC MEETING**

- 3.1 A Public Meeting will be held to discuss the proposal. Anyone wishing to attend the public meeting is invited to do so. The meeting will be convened by the Comhairle and will be addressed by representatives of the Education and Children's Services Department and other senior officers of the Comhairle.
- 3.2 The meeting will be an opportunity to:
- Hear more about the proposal
  - Ask questions about the proposal
  - Have the views of all stakeholders recorded so that they can be taken into account as part of the Proposal process.
- 3.3 Arrangements for the meeting are as follows:
- **Venue: Cross Primary School**
  - **Date: Tuesday, 1 June 2010**
  - **Time: 7.30pm – 9.30pm**
- 3.4 A note will be taken at the meeting of questions and views. This note will be published on the Comhairle web-site, and a copy will be made available on request. The meeting will also be recorded.
- 3.5 The Comhairle will also take into consideration any written or electronic submissions on the proposal, which may be submitted to [schoolconsultations@cne-siar.gov.uk](mailto:schoolconsultations@cne-siar.gov.uk) or to the **Chief Executive at the Comhairle Offices, Sandwick Road, Stornoway HS1 2BW, to arrive not later than 5.00pm on Wednesday, 30 June 2010.**

**GENERAL BACKGROUND TO THE NEED FOR A SCHOOL ESTATE REVIEW**

- 4.1 The Comhairle is charged to provide its statutory services as effectively and efficiently as possible. It is therefore necessary to be strategic in the delivery of education to ensure Best Value. School rolls in the authority as a whole have been falling year on year for the last thirty years and, as far as can be seen, this is a continuing trend. There are more buildings in the school estate than are considered necessary for the delivery of high quality education.
- 4.2 The problems relating to the existing education provision within the Western Isles can be briefly stated-
- a) There are too many schools for the size of the pupil population.
  - b) Many schools are costly to maintain.
  - c) Many schools are neither designed nor equipped to offer high quality education across all aspects of the curriculum in the 21<sup>st</sup> century.
  - d) The pupil costs, relating as they do to pupil numbers, are very high.
  - e) The staffing costs, relating to pupil numbers, are very high.
  - f) Education Grant-Aided Expenditure, with pupil numbers as a primary indicator, continues to diminish in line with falling pupil numbers, having a severe impact on the Comhairle's budget.

- 4.3 The requirements which have to be addressed by the Comhairle are-
- a) to provide a quality education service for children and young people aged 3-18.
  - b) to adjust the school provision within the Western Isles to reflect the present and projected pupil numbers.
  - c) to enhance the facilities available to all pupils aged 3-18
  - d) to bring the costs of the education provision to a level which the Comhairle can afford while aspiring to enhance the quality of Learning and Teaching environments.

## COMHAIRLE ASPIRATIONS

- 5.1 In order to address the requirements in a rational and fair way throughout the Western Isles the Comhairle is;
- a) committed to providing the highest quality of educational opportunity and experience for school pupils within available resources;
  - b) committed to consultation procedures which communicate accurate information about the benefits of change;
  - c) committed to change which is carefully planned, adequately resourced, and phased appropriately;
  - d) committed to ensuring that receiving schools are properly resourced to provide a better environment for learning and teaching;
  - e) committed to the view that projects linked to the School Estate Review should have priority within its programmes of Capital and Revenue expenditure.
- 5.2 This will be done by –
- reducing surplus capacity in schools
  - improving the condition and suitability rating of schools through capital projects and addressing maintenance issues
  - improving property flexibility
  - meeting statutory requirements of Disability Discrimination Act 2005 (DDA).
- 5.3 The Scottish Government issued its 'Building Better Schools: Investing in Scotland's Future' document in September 2009. The document sets out the Government's aspirations for the school estate and states:
- "All children and young people will be educated in, and community users will use, schools that are 'fit for purpose' in terms of condition, suitability and sufficiency;
  - Schools are well-designed, accessible, inclusive learning environments that inspire and drive new thinking and change and which support the delivery of high quality educational experiences through *Curriculum for Excellence*;
  - Schools are integral parts of the communities they serve, with pupils making use of community facilities and communities accessing school facilities;
  - Schools accommodate and provide a range of services, activities and facilities that make a difference to people's health and well being, to sustaining economic growth and to the strength and vibrancy of communities;
  - A sustainable school estate whose design, construction and operation is environmentally and energy efficient; contributes directly to delivering the year-on-year reductions in greenhouse gas emissions introduced by the Climate Change (Scotland) Act 2009, which is resilient to the impact of climate change and which leads by example in matters of environmental performance;
  - A school estate that is efficiently run and that delivers maximum value for money;
  - A school estate which is flexible and responsive - both to changes in demand for school places and to learners' and teachers' requirements and wishes, and where the beneficial impact of change is maximised by thorough consultation and engagement with users and stakeholders".
- 5.4 Through consultation, there is already agreement for amalgamations of schools within the Western Isles Schools Project, namely Aird and Knock Primaries amalgamating with Bayble Primary in the new Point School and Airdhantuim and Barvas Primaries amalgamating in the new West Side School. This, along with the new builds at The Nicolson Institute, Sir E Scott School and Balivanich School will ensure that 40% of all pupils in the Western Isles will be educated in Condition A buildings by 2012. If the School Estate Review is fully implemented, Gaelic Medium Education will be offered in every school.

- 5.5 In order to maintain an adequate level of provision it is necessary for the Comhairle to allocate its resources in a way which will secure the best possible education for pupils in the Western Isles. Implicit in this objective is the effective deployment of resources in order to provide better educational facilities. The Comhairle believes that it must continue to look at the current provision of education in the Western Isles, to plan ahead and to determine the best way in which educational facilities of a higher standard can be made available for present and future generations.
- 5.6 The advantages of rationalising provision can be summarised as follows -
- a) More efficient and effective deployment and development of staff and more effective flexibility in grouping children for learning and teaching.
  - b) There is an opportunity for reinvestment of savings from the School Estate Review in the Education Service to ensure all children and pupils are educated in buildings that are well designed and accessible, with inclusive learning environments.
  - c) There is the opportunity to achieve better management of school buildings by making better use of capacity to integrate additional support needs and pre-school within mainstream provision.
  - d) There is the opportunity to adapt buildings to take account of demographic change by providing more flexibility in accommodation usage within schools.
  - e) There is the opportunity of overseeing the construction of new schools to meet modern curricular needs and to replace older and poorer school building stock.
  - f) There is the opportunity of disposing of buildings to raise Capital Receipts for the Comhairle.
- 5.7 Even if the advantages were ignored, the present situation cannot continue for much longer as the Comhairle will have insufficient resources to maintain all of its school buildings, thus resulting in deterioration and health and safety implications which may force closure.

## KEY FACTORS

### Demographic Trends and School Rolls

- 6.1 The total school rolls have fallen steadily since Comhairle nan Eilean Siar was established as a new Education Authority in 1975. Predictions made about falling school rolls in the past have proved to be accurate and therefore have been reliable. The total roll (primary and secondary) thirty years ago was 6,246 while in September 2009 this had fallen to 3,681. Even since the current phase of the debate on education provision started in session 2007- 2008 the number has fallen by another 152. In the last five years the pupil roll in the Western Isles has fallen by 333.
- 6.2 As pupil population has declined, the level of funding has also fallen in line with that decline. This has the effect of making the current pattern of provision an unsustainable one, particularly in the context of the necessity to make major cutbacks at present and for the foreseeable future.

### Travel

- 6.3 A key criterion is the travel implications for pupils which would arise in the event of rationalisation-
- a) The distances that pupils have to travel to and from school are clearly important in any assessment of the requirement to make relevant and appropriate provision. In addition, distances of themselves have to be set in the context of road conditions and the time that such travelling takes.
  - b) The Comhairle Policy states that Primary pupils should not, as a rule have to travel more than thirty minutes on a bus or Secondary pupils more than 60 minutes. However, on occasions where pupils are living in a remote location which would mean that their journey to school was longer than the policy stated, reasonable steps would be taken to minimise their journey time. In relation to secondary pupils, parents may elect to have lodgings provided for their child if their journey exceeds one hour. The Comhairle will look at solutions which would reduce travelling time for pupils from the furthest away areas by using minibuses and/or taxis to take pupils to identified pick-up points so that travel to and from school would be as direct as possible.

## CONSULTATION PROPOSAL

- 7.1 It is proposed that:
- Education provision at Cross Primary School be discontinued with effect from 30 June 2011.
  - That the pupils of Cross Primary School continue their education at Lionel School, from 18 August 2011.
  - That the catchment area of Lionel School be extended to include the current catchment area of Cross Primary School.

## EDUCATIONAL BENEFITS STATEMENT

### Affected Schools

- 8.1 Cross Primary is a single storey Victorian building, probably dating back to the late 19<sup>th</sup> Century, and is constructed of stone with a rendered finish beneath a pitched slate roof. At present the school roll consists of 13 pupils forming one class grouping P2-P7. The school is managed under a shared Head Teacher arrangement with Lionel School. The school has capacity for 67 pupils. The roll has declined by 57% over the past 7 years. The school was assessed as Condition C in the 2007 school estates survey.
- 8.2 The catchment areas for Cross school are the villages of Cross, Dell and Swainbost.
- 8.3 Lionel School was built in 1936 on a level site and has a large playing field. The property comprises of a single block two storey building. The school has capacity for 125 pupils in the primary department. At present the roll in the primary department is 68 and classes are divided into 3 Gaelic Medium groupings and 2 English Medium groupings. The primary roll has increased by 28% over the last 7 years. For the current session there were 2 placing requests approved for pupils from Cross catchment area to attend Lionel Primary. Lionel school was assessed as Condition B in the 2007 school estates survey.
- 8.4 The catchment areas for Lionel school are Adabrock, Butt of Lewis, Cross Skigersta, Eorodale, Eoropie, Fivepenny, Habost, Knockaird, Lionel, Port of Ness and Skigersta.

### Learning environment

- 8.5 The pupils from Cross primary school would benefit from the enhanced learning environments of Lionel School. These include spacious play areas, a ball court and a sports field. The school also has a dedicated library, art room, ICT suite, a swimming pool and access to a modern equipped gym hall. The pleasant cafeteria area in Lionel School provides pupils with freshly cooked meals on site. Lionel school is developing an outdoor learning classroom and a living science area. The transfer to a school with a larger pupil roll would have social and educational benefits for the pupils with increased curricular and extra curricular opportunities. A larger pupil population would enable greater flexibility in grouping children for learning and teaching. There would also be greater flexibility in the deployment of staff to meet the learning needs of pupils. The learning opportunities and experiences of pupils would be significantly widened. Staff from Cross Primary School would benefit from additional Continuing Professional Development (CPD) opportunities to be gained by working and learning with a larger range of teaching colleagues. A larger staff would offer a wider range of expertise resulting in increased opportunities for sharing practice and more collegiate support. A likely effect of the proposal would be to create effective teaching sets at all stages which would sit well within the Government class size guidelines.

- **Information and Communication Technology (ICT)**

The pupils of Cross School would have access to a more extensive range of ICT resources in the proposed move to Lionel School. Each classroom in Lionel has an interactive whiteboard in use as well as a number of PCs supplemented with one set of 'classroom in a box' laptop computers. In addition to the classroom ICT resources, there is available to all pupils a fully equipped ICT suite which is effectively used.

- **Additional Support Needs**

Lionel School has the facilities to cater for the needs of all children, including those with a full range of additional support needs. As there are already pupils on the roll with specific needs, staff have been trained appropriately to cater for such needs.

- **Gaelic Medium Education**

Lionel School has a long established and thriving Gaelic Medium provision of which Cross pupils and parents will be able to take advantage. This provision is not currently available in Cross school.

### **Pre-school provision**

- 8.6 The Ness area is served by a Croileagan run by the voluntary sector which is situated in The Old Canteen at Cross School. Pre-school children who attend the Croileagan go on to both Cross and Lionel Schools. This provision is supported by Comhairle staff.

### **Accessibility of Premises**

- 8.7 The ground floor of Lionel School is extensive and all areas on that floor are accessible to those with restricted mobility. The art room which is situated on the first floor is accessible through a connecting corridor through Spòrs Nis.

### **Extra curricular activities**

- 8.8 At Cross School the range of extra curricular activities include ICT, art and keep-fit. Every effort would be made to encourage the continuation of these programmes, along with the provision presently offered at Lionel Primary school.
- 8.9 At Lionel School the range of extra curricular activities include art, ICT, drama, music and sport.

### **Capacity**

- 8.10 Cross school has a capacity for 67 pupils but is currently utilising only 19% of that. Lionel School has a capacity for 125 pupils and is currently utilising 54% of that.
- 8.11 The present users of Lionel School's facilities will not be disadvantaged in any way by the addition of Cross School's pupils. Because of spare capacity, there would be no impact on the proposal if new pupils moved into the community. The pupils of both establishments will link to the same secondary, so at the point of P7 transition, for example, there would not be an impact on the rolls of any other secondary school.

### **Likely Effect on the Local Community**

- 8.12 Cross school is mainly utilised by parents for events linked to the school such as Parent Council meetings, school concerts and activities related to curricular matters. Cross school has had no school lets for out of school use over the past 12 months.
- 8.13 Lionel school has had 28 lets over the past 12 months. As Lionel School is less than 3 miles from Cross it is believed that there will be no significant impact for the wider community from the Cross School catchment area to access the full range of the facilities at Lionel School. As such, the likely effect of the closure proposal would be on the Parent Council of Cross School which would require to be wound up in the event of said proposal being implemented.

### **Travel**

- 8.14 Presently 2 pupils at Cross school are entitled to free school transport. The remaining pupils either walk or are conveyed by private transport or pay on the service bus. If pupils transferred to Lionel School, all would be eligible for free transport. The distances and road conditions are not regarded as presenting any particular problems.

### **Staff Transfer**

- 8.15 Any staff transfers will be conducted under existing Council terms and conditions with attempts being made, where possible, to minimise any additional distance that they may require to travel. Where necessary, any aspect of the implementation of these proposals that impacts on staff will result in consultation with the relevant trade unions and the individuals concerned.

### Summary of Educational Benefits

- 8.16 Attending a school with a larger roll will have educational benefits for pupils currently at Cross School. The learning opportunities and experience will be significantly widened. The specific benefits are listed below.
- increased opportunities for pupils, both curricular and extra-curricular activities;
  - greater flexibility in grouping children for learning and teaching;
  - greater flexibility in the deployment of staff to meet learning needs;
  - a larger staff will offer a wider range of expertise resulting in increased opportunities for sharing effective practice, more collegiate support and a wider range of learning and teaching approaches;
  - more management support to promote school improvement
- 8.17 Pupils and parents of Cross Primary School would have access to a modern educational establishment, which is fully equipped and designed to meet the needs of pupils and deliver a Curriculum for Excellence. There is an opportunity for the pupils, staff and parents of both schools to benefit from working together to ensure that the very best quality of learning and teaching is available to all pupils, irrespective of their needs or abilities.
- 8.18 The proposal will result in pupils at Cross School attending a building that is more modern and better designed for the delivery of a 21<sup>st</sup> Century curriculum. The staff, parent councils and community will be fully consulted on the development of plans for the integration of pupils from Cross School into Lionel Primary School.

### CONSIDERATION OF FACTORS AFFECTING RURAL SCHOOLS

- 9.1 In terms of Section 12 of the Schools (Consultation) (Scotland) Act 2010, Cross School is an accessible Rural School. Consequently special regard has been given to the following factors in the preparation of this document.

#### Viable Alternatives to Closure

- 9.2 The only alternative option for the future provision of education for pupils at Cross School is to upgrade the building to at least condition B and make it Disability Discrimination Act 2005 (DDA) compliant. This option does not provide the means to increase the roll, thereby providing educationally beneficial class groupings which would enrich the learning experiences. The proposal would provide more effective opportunities for collegiate working and peer support.
- 9.3 The Comhairle does not within its current budget have the means to meet the current repairs and maintenance requirements or provide physical adaptations to the building to provide optimum learning and teaching environments. This option is therefore not considered to be viable.

#### Likely Effects on the Local Community

- 9.4 As detailed in Section 8.12 and 8.13 of this proposal document it is believed that there will be no significant effect on the local community. It is important to note that Cross School due to its limited accommodation requires to use the gym facilities at Lionel School on a weekly basis.
- 9.5 The Outer Hebrides Migration Study 2008, identified key factors of sustainable communities which included sustainable employment, private sector led economic diversity, housing provision, self determination, clean energy. It is not believed that the closure of Cross School would significantly impact on the identified key factors needed for sustainable communities.

#### Likely Effect Caused by any Different Travelling Arrangements that may be required in Consequence of the Proposal

- 9.6 As detailed in Section 8.14 of this proposal document, Cross School pupils would use the existing transport structure to access education at Lionel School. Consequently the closure of Cross School would not produce a negative environmental impact. If the proposal were adopted there would be a reduction in the carbon footprint due to a reduced amount of energy being used to heat one school instead of two.

## OTHER FACTORS

### Pupil Costs

- 10.1 The annual budgeted school running cost per pupil, as reported to Scottish Government, is obtained by dividing the total budgeted school running cost by the school roll. The total cost comprises of the following.
- Staff (teaching and non teaching)
  - Premises (e.g. lighting, heating, maintenance, cleaning etc)
  - Supplies (including books, materials and educational equipment)
  - School transport
  - Catering
  - Other School Costs (e.g. Parental Councils, Administration, Examination costs where applicable etc).
- 10.2 The Cross School pupil costs for 2009/10 are shown in the following table along with the relevant comparators.

Detail	Amount
Scottish Average	£3,948
Western Isles Primary School Average	£7,014
Lionel School Primary Department	£6,707
<b>Cross Primary School</b>	<b>£9,666</b>

- 10.3 As will be observed, the average costs per pupil within the Western Isles are much higher than the Scottish average in any year. When comparing the relevant costs it will be noted that, owing to the small number, the cost per pupil for Cross School is substantially higher than the figures for the potential receiving school and the average for the Western Isles.

### Staffing

- 10.4 **Teaching Staff**  
The teaching staff complement at Cross School is 1FTE teacher and 0.45 FTE itinerant teachers, giving an overall complement of 1.45 FTE staff. Itinerant staff would be given revised timetables, as already is the case in such circumstances. The school has a shared headship arrangement with Lionel School.

### Ancillary Support

- 10.5
- a) **Clerical/Auxiliary.**  
There is a school assistant employed for 37 hours per week.
  - b) **Janitor**  
There is no janitorial provision.
  - c) **Cleaning Staff**  
The school cleaner is employed for 14 hours per week.
  - d) **School Meals**  
A dining attendant is employed for 7.5 hours per week.

## CONCLUSION

- 11.1 Based on the demographic trends and the educational benefits statement the Comhairle is persuaded that the proposal would result in the pupils of Cross Primary School attending a school building which is modern and designed for the delivery of a 21<sup>st</sup> Century curriculum and has therefore agreed to proceed to statutory consultation.

## **APPENDIX 1 CONSULTEES**

---

The consultation will be open to all relevant stakeholders. The groups that will be specifically consulted are:

- Parents of pupils in affected schools;
- Pupils of any affected school;
- Staff (teaching and other) of any affected school;
- Parent Councils;
- Parents of children who may attend affected schools within two years of any proposal being published;
- Trade Unions,
- Community Councils;
- Outer Hebrides Community Planning Partnership;
- Bord na Gaidhlig.

Staff and pupils will be separately consulted.

## APPENDIX 2 SCHOOL ROLLS

### Cross Primary School

School Year	P1	P2	P3	P4	P5	P6	P7	S1	S2	S3	S4	S5	S6	Total
2002-03	7	3	8	5	2	3	2	0	0	0	0	0	0	30

## APPENDIX 3 FINANCIAL INFORMATION

- The annual budgeted school running cost per pupil for 2009/10, as reported to Scottish Government, is obtained by dividing the total budgeted school running cost by the school roll.
- The pupil numbers are based on the Scottish Government census return which is completed in September of each year.

### COMHAIRLE NAN EILEAN SIAR
