enough information.

N4: Reponse to scoping submitted. Cllr Fraser will find out if CnES benefit from any of the current turbines. K MacLennan reported that the Westside estates groups are continuing to engage with Northland Power in a robust and professional manner with a view to achieving a community benefit settlement that is commensurate to the scale of the development and its closeness to shore. The Estates Group are neither for nor against the project at this stage, until there are definite proposals to consult on regarding the size and number of turbines and also the community benefit proposals. Chairman A. Mackenzie said that the Community Council would hold a public consultation when there were proposals to consult on.

Urras Nan Tursachan: temporary facilities opening on 25th March. A. Smith reported that Urras Tac Chalanais were planning to meet with Mark Davies, the project Delivery Officer. Dates to be confirmed with Councillors.
