

Lewis Hub (AC Substation and HVDC
Converter Station)

Environmental Impact Assessment Report
Volume 3a - Figures

February 2025

CONTENTS

Chapter 1 Introduction

- 1.1 Site Location

Chapter 2 Description of Proposed Development

- 2.1 Proposed Development

Chapter 3 Consideration of Alternatives

- 3.1 Stage One Site Options
- 3.2 Stage Two Site Options
- 3.3 Layout Design Evolution

Chapter 4 EIA Process and Methodology

- 4.1 Cumulative Developments

Chapter 5 Landscape and Visual

- 5.1 LVIA Study Area
- 5.2 Zone of Theoretical Visibility 25km radius
- 5.3 Zone of Theoretical Visibility 5km radius
- 5.4 Landscape Character Types
- 5.5 Landscape Designations
- 5.6 Viewpoint Locations and Sequential routes overlaid with Zone of Theoretical Visibility

Chapter 6 Cultural Heritage

- 6.1 Cultural Heritage: Inner Study Area
- 6.2 Cultural Heritage: Outer Study Area

Chapter 7 Ecology and Nature Conservation

- 7.1 Ecology Designated Site
- 7.2 UKHab
- 7.3 UKHab Ground Water Dependent Terrestrial Ecosystem Potential
- 7.4 Peatland Assessment

Chapter 8 Ornithology

- 8.1 Ornithology Designated Site
- 8.2 Ornithology Survey Location
- 8.3 Confidential
- 8.4 Vantage Point Survey Result For Birds Of Prey
- 8.4 b Vantage Point Survey Result For Waterfowl
- 8.5 Moorland Bird Survey Results

Chapter 9 Hydrology, Hydrogeology and Geology

- 9.1 Hydrological Setting
- 9.2 Private Water Supply Locations
- 9.3 Proposed Development within 50 m of a Watercourse
- 9.4 Proposed Temporary Construction Works

Chapter 11 Noise

- 11.1 Study Area and Noise Receptors

Chapter 12 Traffic and Transport

- 12.1 Study Area
- 12.2 Traffic Counter Locations
