Target set by Service. The school attendance rates has changed from biennial to annual and was published in December 2024. However, the exclusion rates are still biennial. The COVID-19 pandemic has had a significant impact on the delivery of the service. The lowest exclusion rate recorded is 5% in 2016/17, in comparison to a Scottish average of 27% and a LGBF Family Group average of 29%. Taking the historic data into consideration, the Comhairle set a service prioritisation for improvement 2022/23 Target of 20%, decreasing 5% biennially towards an aspirational target of 5% in 2030, thereby returning to the lowest rate recorded. For comparison:2022/23: Scottish average: 16.6% LGBF Family Group 2022/23: 17.9%

March 2025 - 2023/24 DNA. 19 % 2023/24 Target set by service. The 2020/21 data covers the COVID-19 period and picks up the impacts of the pandemic on children and families, and on social work practices and the extent to which the recent trend in placement stability was affected by COVID-19. The change between 2011/12-2020-21 saw the rate drop 35% from 50% to 15%. In 2020/21 the Scottish average was 17% and the LGBF Family Group average was 14%. The aspiration is to reduce the 2020/21 Eilean Siar rate further. Although the COVID-19 data is not comparable with previous years, the Comhairle set a service prioritisation for improvement 2022/23 Target of 20%, decreasing 1% each year towards an aspirational target of 13% in 2030, thereby exceeding the lowest rate previously recorded in 2020/21 of 15%.

£9 Target set by Service. The COVID-19 pandemic impacted on how the service was delivered, as sports facilities faced extended periods of closure, which were then followed by periods of limited openings. This had a severe impact on the number of attendees and resulted in a 1,179% increase in cost per attendance between 2019/20 and 2020/21. The 2019/20 (pre-COVID) Scottish average is £3.50 and the LGBF Family Group average is £3 (adjusted for inflation). Taking these costs into consideration, the Comhairle set a service prioritisation for improvement 2022/23 Target of £10 decreasing £1 each year towards a target of £3 by 2030 and the LGBF group average. The service survey had a return of 92% in relation to service users receiving the care and support as they have outlined in their care plan. The limitation of the 4 SDS options due to the fixed marketplace and level of unmet need can influence the national survey results. Results above Scottish average of 59.6% and the benchmark of the LGBF Family Group average of 62.5%. The Health and Care Experience Survey is undertaken every two years.

The delayed discharge performance is influenced by the consistent operation of communitybased services at maximum capacity. Continuous improvement actions are underway but future targets will be reviewed to accept the unavoidable impact of a service closure reducing the community bed capacity. For comparison the Scottish average is 846 and the LGBF Family Group average is 894.

Target set by service. New service prioritisation targets set in the Corporate Strategy 2022-2027, as follows: Baseline 2019/20: 46.3% Target 2023/24: 47% Target 2030: 50% For comparison:- Scottish average: LGBF Family Group average: It is positive to note an increase in the number of women employees in the top 5% of earners. Whilst year on year there is movement in this bracket in terms of posts and postholder this years shows an increasing number of part-time roles being held by women within the top 5% of earner and this has had a positive impact on this indicator.

4.1.3.CS02 - CE066 (LGBF: CORP03c): The gender pay gap between average hourly rate of pay for male and female council employees. Responsible Officer: Carmen Macdonald (%)

The Scottish Parliament has signed up to the 50:50 by 2020 campaign. Setting a target that the gender pay gap will be within a tolerance level of either plus or minus 5% each year. This target is aspirational for the Comhairle but also deviation from it acts as a trigger for action. The Comhairle set a service prioritisation for improvement 2020/21 Target of 10%, reducing each year towards the national tolerance level by 2030. This was reviewed in comparison to 2019/20 (Baseline Year): 14.4% and the target amended to 12% in 2023/24 reducing year on year towards the national tolerance level by 2030. For reference: Scottish average: LGBF Family Group average: For comparison CnES: 2015 Actual: 16.4% 2017 Actual: 13.7% 2019 Actual: 14.4% 2020 Actual: 13.5% 2021 Actual: 14.1% 2022 Actual: 11.4% 2023 Actual: 9.67% It is positive to note an overall reduction in the gender pay gap. Pay awards continue to be subject to annual agreement at a national level. As previously reported there is a higher proportion of women in Grades A-C who continue to benefit from the implementation of the Scottish Local Government Living Wage and this has a positive impact on the gender pay gap.

Target set by service. In keeping with the LGBF Family Group average 2020/21 (90%), the Comhairle set a service prioritisation for improvement Target in 2021/22 of 90%, increasing by 1% each year towards an aspirational target of 98% by 2030 to exceed the baseline data year-on-year. For reference, Scottish average: 93.1%, LGBF Family Group average: 92.9%. Our electronic PMS allows a full count of all invoices processed within the period. However, the Comhairle was subject to a cyber-attack on 7 November 2023, which resulted in the loss of systems and data. This has seriously disrupted financial processes and it has not been possible to provide the total number of invoices paid within 30 days at this time. We have, therefore, provided a sample of data for the 2023/24 period, which at 80.9% is comparable to the previous year 2022/23 of 82.5% (-1.59%).

Therefore, based on Eilean Siar's average result 2010-2019, a 2021/22 target of £20 was set, decreasing by £1 each year towards an aspirational target of £12.00 by 2030 to exceed the baseline data year-on-year. Target set by service. The Comhairle was subject to a cyber-attack on 7 November 2023, which resulted in the loss of systems and data. This has seriously disrupted financial processes and it has not been possible to provide the Council Tax data at the current time. It is anticipated that we will have the data ready for the LFR's and that will produce the figures for the LGBF SPI too. It should be noted, however, that the 2023/24 data will be skewed due to the additional costs / loss of income relating to the cyber-attack.

4.1.5.CS02 - AFR006 (LGBF-CORP01): Central Support Services (External to Services) as a Proportion of Council Running Costs. Responsibility: Norman Macdonald (%)

Target set by service. The Improvement Service has, over the last few years, been doing some work on standardising the treatment of support cost across councils, to ensure more meaningful comparisons. The Comhairle achieved a change of -2.46% from the baseline year 2010/11 to 2020-21 and the 2020/21 Scottish average and LGBF Family Group average are both 4%. Taking these percentages into consideration, the Comhairle set a service prioritisation for improvement 2021/22 Target of 5.60% decreasing 0.20% each year towards an aspirational target of 4% by 2030 towards the Family Group average and to exceed the baseline data year-on-year. CD128 (CE098) (LGBF: ECON07 / SLAED:IG5): Percentage of Employees earning less than Living Wage. Responsibility: Domhnall MacDonald (%)

The Improvement Service extract the LGBF ECON07 data for percentage of people earning below living wage from the Office for National Statistics (ONS) publication on Annual Survey of Hours and Earnings (ASHE) and for the year 2023/24 they did not provide data for Eilean Siar. This is because either the coefficient of variation of estimates for Eilean Siar is too large making the data unreliable and hence they had to suppress them from publication on quality grounds or because there is a risk of disclosure of individual employees or employers. However, ONS do not specify which one of these reasons apply to Eilean Siar.
